

ADVANCED TRANSPORTATION COMPANY SPOTLIGHT

LINXS - LAX INTEGRATED EXPRESS SOLUTION

LINXS MOVES LOS ANGELES INTO THE FUTURE AND IS LOOKING TO HIRE YOU!

Raygena Smith, Youth Advancement Coordinator, and Dr. Giovanna Brasfield, LINXS Inclusivity Manager, sat down and offered insight into **LAX Integrated Express Solution (LINXS)**. They painted a clear picture of what it's like to work at a company on a mission to make transportation at one of the world's busiest airports easier for commuters.

As two women who are instrumental to the hiring process, they also provided tips on how students can stand out during the application process and potentially join the team.

ABOUT LINXS

The LINXS project, which was 10 years in the making, is a transportation system project currently underway at LAX. It's a 2.25-mile guideway that will connect to all terminals as well as the Metrolink bus system. The purpose of this expansive project is to connect travelers, at no additional cost, to their flights faster and help alleviate much of the traffic that accumulates at LAX. The project is expected to be completed in 2023.

OPPORTUNITIES ABOUND

There are many employment opportunities at LINXS. Applicants can either apply for a position on the construction or administrative side of the project. At any given time, there are 100+ employees working on the construction of the railway, so it's certainly busy! Once the project is completed, there will be customer service positions available to applicants.

LINXS is continuously looking to employ welders, plumbers, landscapers, cement masons, carpenters, and electricians. Individuals with certifications are encouraged to apply, making it an ideal job for early professionals or applicants fresh out of a two-year program! In fact, many of the currently employed contractors at LINXS went through an apprenticeship program, obtained certification, and are now working in the field. LINXS also offers professional office positions and provides applications and information on its [website](#).

LINXS measures their in-office employees' daily impact through weekly progress reports and daily check-ins, so expect involved management. Internship opportunities are available with LINXS partners [ACES](#) and [C4](#). Students are encouraged in their second year of college to apply through those programs to land a coveted spot with LINXS!

Recruiters are looking for students who are open to various opportunities. If you get your foot in the door, that's your chance to network. You never know who could become your mentor!
